Subject: Weather Network Application

I hope this email finds you and your colleagues well.

Please find below the statement issued to the CRTC on behalf of Saint John-Rothesay MP Wayne Long concerning the Weather Network being moved to a higher cable package.

I hope it makes a difference and have a great day!

Jim Hennessy  
Executive Assistant  
Saint John Rothesay MP Wayne Long

As the member of Parliament for Saint John-Rothesay, I understand how quickly the weather can change on an hourly basis living this close to the coast and especially, during the winter months. With many people traveling by many means of transportation, it is vital they have access to up to date and accurate weather forecasts.

The Weather Network provides all of the information vital to travelers and those who need to prepare for a storm 24/7, 365 days a years. The Weather Network and its professional staff give comfort to those who rely on accurate weather. Saint John-Rothesay has one of the highest poverty rates in Canada and an increase in the fee to access the network would be a burden for many people in my riding.

Thank you for considering my concerns and if you need to follow up, myself or my staff are always available.

Wayne Long  
Member of Parliament  
Saint John-Rothesay
