RE: Application number 2017-0586-5
Consultation number 2017-365

Dear Sir/Madam:

At a council meeting held on November 14, 2017 the Council of the Township of Carlow/Mayo considered the renewal application for the broadcasting licence of The Weather Network.

The Council of the Township of Carlow/Mayo supports The Weather Network to remain on the basic television service available to all subscribers as it plays an important role in providing safety, weather and environmental information programming that helps Canadians plan and stay safe.

In a small rural community the public, individuals and businesses, depend on The Weather Network to receive up to date customized local forecasts for active weather, warnings and watches and road information to plan their day and work schedule.

It is important that the television service remains affordable and accessible to the public as The Weather Network is a valuable public safety tool for emergency alerts and much more.

Yours truly,

Arlene Cox

Clerk-Administrator
