Dear Sir or Madam:

Council of the Town of Lockeport wishes to lend support to the Weather Network in their application for their service to remain as part of the basic television service available to all subscribers for a seven-year license term, at the same rate they have received since 1993.

The Weather Network plays an important role in providing safety, weather and environmental information programming that helps Canadians plan and stay safe.

The basic television service remains the most available, affordable and accessible way for many Canadians to access essential news, information and entertainment services – especially for those who do not have access to, or are not comfortable using, broadband internet.

George R. Harding
Mayor

Cc: Kurt Eby, The Weather Network

My Town . . .

Lockeport – where we partner to build a prosperous future with services that provide value and a quality of life which we take pride in.
