To Whom It May Concern:

Re: Application #2017-0586-5 and Consultation #2017-365

The County of Grey is a family of distinctive communities which values its heritage, natural beauty, clean, healthy environment and rural lifestyle. As the fourth largest County in Ontario, Grey County is home to more than 84 thousand residents and is located approximately 2 hours north of Toronto.

Grey County is in full support for the continuation of the Weather Network's programming remaining as part of the basic cable package. The Weather Network provides valuable information to our residents including broadcasting emergency information. It provides support of public safety to municipalities in planning their winter maintenance operations strategies for upcoming storm events.

Should you require any further information, please feel free to contact me at any time.

Yours truly,

A handwritten signature in dark ink, appearing to read "Larry Miller", written over a white background.
