2017-0586-5 : Pelmorex Weather Networks (Television) Inc.

Case number: 256366

Date submitted: 2017/11/30 15:30:21

Intervention in: Support

Comments: CFET Radio, 106.7 FM is the Yukon's first commercial FM radio station 2002 We support the application for Pelmorex to operate Canada's NAAD system. We were among the first stations in Canada to carry this important alerting service, beginning with a pilot project with the Yukon Government's Emergency Measures Organization. Pelmorex has been very helpful in deploying this system and testing. We've been able to work together towards further the objectives of alerting, but also been able to create our open source solution just by looking at the CLF documents that Pelmorex issues, which shows that the model would allow anyone to participate. The documentation\blue prints were so thorough and clear, that we were able to implement this alerting service without having to ask Pelmorex a single question. Please approve Pelmorex renewal, Thanks, RadioRob - CFET Radio
